

LOVEJOY POND

Albion Twp., Kennebec County
U.S.G.S. Albion, Maine

Fishes

Smallmouth bass	White sucker
Largemouth bass	Hornpout (bullhead)
White perch	Banded killifish
Yellow perch	Pumpkinseed sunfish
Chain pickerel	American eel
Minnows	
Golden shiner	

Physical Characteristics

Area - 324 acres

Temperatures:

Maximum depth - 32 feet

Surface - 68°F

30 feet - 65°F

Principal fisheries: Smallmouth bass, largemouth bass, white perch, chain pickerel

Lovejoy Pond is a shallow warmwater body of water susceptible to algae blooms during the hot summer months. Water quality of this pond mandates management for warmwater sportfish and no coldwater species should be stocked. Anglers can expect good bass and white perch fishing.

A public right of way is provided along the west shore. Access to the pond is also available across undeveloped land at several points.

Surveyed - August, 1941

Revised - 1953, 1997
